### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## DETAILED ACTION

### *Priority*

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Republic of Korea on 02/06/04. It is noted, however, that applicant has not filed a certified copy of the foreign application as required by 35 U.S.C. 119(b).

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In the preamble of claim 1 the term "improved" is confusing as it is unclear as to how the permeable concrete is improved. Improved as compared to what? Clarification is requested. The phrase "high-performance" renders the claim vague and indefinite as "high" is a relative term. The phrase "being substituted for particulates of blast furnace slag" is confusing as it is unclear as to whether or not applicant is trying to say that a the blast furnace slag replaces a portion of the slag. Clarification is requested. The phrases "the compressive strength" and "the permeability coefficient" appear to lack proper antecedent basis. Applicant should replace the term "the" with "a" which would overcome this lack of antecedent basis.

In claim 2 the phrase "can be rubble aggregates" is not a positive claim limitation. It is unclear as to what is meant by the phrase "and comprise 10-30% of the aggregates

Art Unit: 1755

of the size 5mm or less". Is applicant trying to say that 10-30% of the aggregates is made of ones having a particle size of 5mm or less or what? Clarification is requested.

In claims 5 and 6, the phrase "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention and the scope of the claim is unascertainable. See MPEP § 2173.05(d). The phrase "including urethane powder" is not understood. Is applicant saying that urethane powder is a required component? The phrase "the surface" (first occurrence) appears to lack proper antecedent basis.
